Polio vaccinations

On 5 May 2014, the World Health Organization (WHO) Director General declared the international spread of wild type polio virus to be a Public Health Emergency of International Concern under the International Health Regulations (IHR).

Since 5 May 2014, if you have spent 28 days or more in one or any combination of countries listed under the Endemic and Outbreak categories on the Global Polio Eradication Initiative website, we encourage you to have a polio vaccination before departing for Australia. Having the vaccination will also assist in eradicating the spread of polio.
